Getting Started

Welcome to Pretaa! We are excited to embark on your health and wellness journey with you.

Check compatibility

See if your phone is compatible with the Fitbit app using the link below: Check your [phone compatibility](#).

Get your phone ready

Download the latest software update and turn Bluetooth on.

Prepare your Fitbit

Move other Fitbit devices out of range and make sure your battery is at least 50% charged.

Get set up in 3 easy steps

1

Download and log in to the Fitbit app. If you have an account, log in. Otherwise, create a new account.

[Apple App Store](#) →

[Google Play Store](#) →

2

Wake your Fitbit up
Press the button on the side of your watch to turn it on.

3

Start setup
Go back to the app, tap your profile picture to access your account settings, and tap "Set Up a Device." From there, follow the step-by-step instructions.

Pretaa Clock Face Installation

Installing the Pretaa clock face

Scan the [QR code](#) with your mobile device's camera app to go straight to the [Pretaa clock face](#).

 Click on the browser link that appears in the camera app. You will be brought to a page showcasing the Pretaa watchface. Click on "OPEN APP" to be redirected into the Fitbit app to download the clock face.

 Select "INSTALL" to begin installing the Pretaa clock face.

Best Practices:

- To update the clock face on your watch, you must have no more than 38 apps installed.
- Some clock faces have different color themes or other settings. To adjust the settings of a clock face, tap the installed clock face > **Settings**.
- Many clock faces also require access to certain stats or other information. Note that turning off any of these permissions might cause the clock face to stop functioning. To adjust what a clock face has access to, tap the installed clock face > **See all details > Permissions**

Fitbit SpO2 Tracker Installation

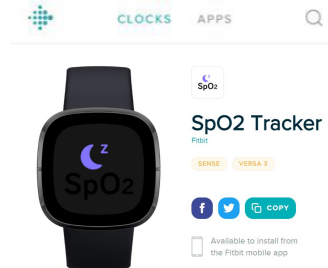

Installing the SpO2 Tracker

Scan the [QR code](#) with your mobile device's camera app to go straight to the [Fitbit SpO2 Tracker](#).

Click on the browser link that appears in the camera app. You will be brought to a page showcasing the Fitbit SpO2 Tracker. Click on "OPEN APP" to be redirected into the Fitbit app to finish installation.

From the Today tab in the Fitbit app, tap the profile icon in the top left corner. Click on your device. Click Gallery. Use the search bar to find "SpO2". In the results, tap SpO2 or SpO2 Tracker. Click Install.

Best Practices:

- To update the clock face on your watch, you must have no more than 38 apps installed.
- Some clock faces have different color themes or other settings. To adjust the settings of a clock face, tap the installed clock face > **Settings**.
- Many clock faces also require access to certain stats or other information. Note that turning off any of these permissions might cause the clock face to stop functioning. To adjust what a clock face has access to, tap the installed clock face > **See all details** > **Permissions**
